

Basics

How do I find the latest version of HyperFS?

Find all the latest versions on <ftp.scalelogicinc.com>

Ensure your OS has a compatible client at this page <https://www.scalelogicinc.com/support/downloads/>

A valid support contract is REQUIRED so please contact support@scalelogicinc.com for access to our FTP or to discuss your support contract.

If you don't have a support contract you can get all the clients from your current running MDC web page at http://<ip_address>:83. Username is usually "technician" and password is "Genes!sSL1". Contact support@scalelogicinc.com if you have trouble accessing the :83 log in.

Unique solution ID: #1000
